Subject: Return of Reclamation Contract and Letters of Credit and Closure of File, Zamaroni Quarry, Inc., Antelope Valley Mine, S/039/0016, Sanpete County, Utah

Dear Mr. Zamaroni:

Records on file with the Division of Oil, Gas and Mining indicate the Antelope Valley mine has been inactive for over 10 years, and, per rule R647-3-113.5, reclamation was required. In 2014, the Division indicated that it would accept either full reclamation or a replacement Notice of Intention to Commence Small Mining Operations (Notice) and continued regulation as a small mine.

Mountain Valley Stone, Inc., (MVS) submitted a new and complete Notice and plans to completely absorb the unreclaimed disturbance for the Antelope Valley mine for which Zamaroni Quarry, Inc. has been responsible. MVS has also provided an adequate reclamation surety. On December 9, 2015, the Division received an e mail saying you were allowing MVS to take over the Antelope Valley site.

Zamaroni Quarry, Inc. is no longer liable for reclamation at this site. The Division is returning the enclosed reclamation contract for your files. The file for the Antelope Valley mine, S/039/0016, will be closed and retired. You may not commence small mining operations in this or other areas in the State of Utah without Division authorization.

Please contact Peter Brinton at 801-538-5258 or me at 801-538-5261 if you have questions about this action. Thank you for your cooperation.

Sincerely,

Paul B. Baker
Minerals Program Manager
